Answered: 32 Skipped: 2

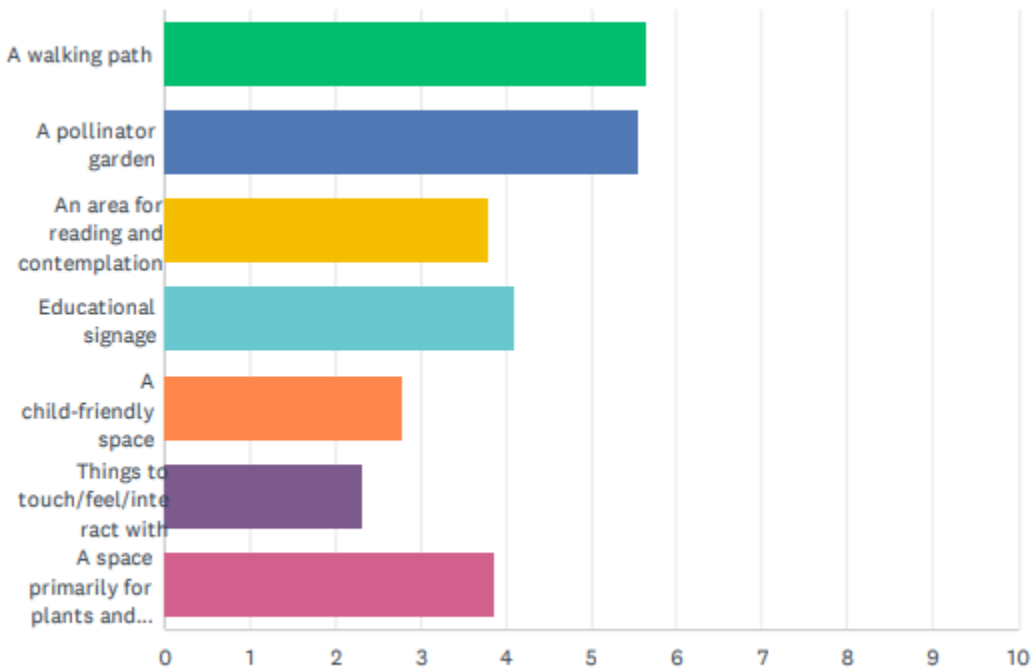

What brings you to Quiet Waters Park?

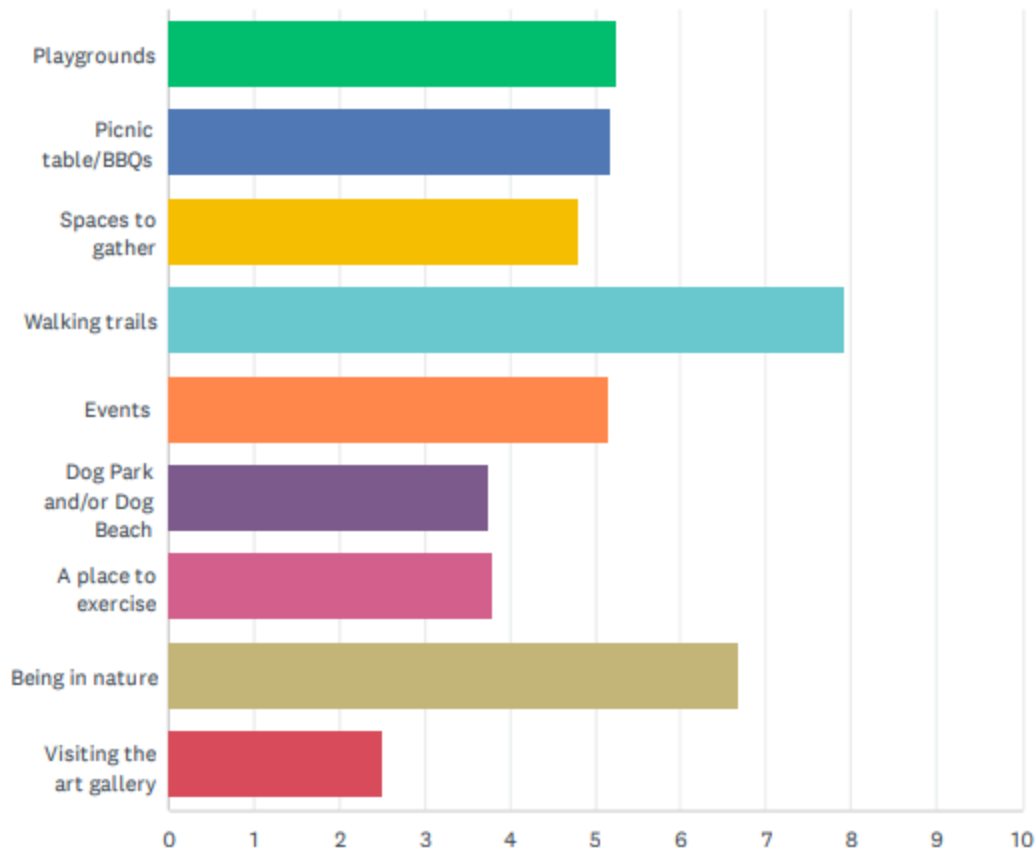

(open answer)

In a conservation landscape - a garden that improves water quality, promotes and preserves native species, and provides wildlife habitat - rank what features would appeal to you most. Top ranking is most appealing, bottom ranking is least appealing. (bottom option cut off reads: "a place primarily for plants and animals")

Rank the features in Quiet Waters Park that you use most often. If you have never been to the park, what features in Quiet Waters Park would be most appealing to you?
